

Check it out! Our new Mistakes in Gastroscopy article is hot off the digital press.

The latest article in our wildly popular **"Mistakes in..." article series** tackles the topic of **gastroscopy**! This stellar publication by Jochen Weigt and Arne Kandulski presents the common mistakes that should be avoided during **Upper-GI endoscopy**, causing several problems and misdiagnoses. Want to grow from the mistakes our experts have personally experienced? Interested in uncovering more about the suitable classification systems to describe abnormal findings, the combination of imaging modalities and various endoscopic techniques that facilitate the procedure? Then read our new, full UEG Education article.

#UEGEdu at #UEGWeek – your chance to advance.

Our "Mistakes in..." sessions are live & back to help keep you on track!

These dynamic sessions will cover many exciting items! Here are a few hot points.

[Luminal IBD & endoscopy](#)

Lesion detection and characterisation, the use of appropriate resection devices and methods, and the management of malignant polyps are all important parts of a multistep process that requires training, experience, expertise and a multidisciplinary approach.

[Neurogastroenterology & motility & nutrition](#)

The majority of patients who have coeliac disease remain undiagnosed, leaving the coeliac "iceberg" mostly submerged.

[Hepatobiliary & pancreas including imaging](#)

The correct use and interpretation of these imaging modalities requires good clinical judgment and collaboration between

Heard of our "Connect with Experts" networking opportunities? They're new & only available at UEG Week!

Ever stopped and asked yourself, "who is behind the UEG Education team?". Well this UEG Week we're offering you the chance to connect with our #UEGEdu Chair and #UEGEdu Web Editors.

We implore you to link with them and ask your most burning questions directly! You can ask face-to-face about career advice, author contributions, #UEGEdu content, or any topic that comes to mind.

No registration needed! Get excited – your new, expert connections await.

Our experts look forward to chatting with you October 10, 15:00 – 15:30 CEST and October 11, 10:30 – 11:00 CEST.

gastroenterologists and radiologists and what we can learn from past mistakes.
