GI Guidelines App

Download for free

Our free **GI Guidelines App**: It just keeps getting better!

Did you know that there are several newly available guidelines in our app? Latest additions include:

- Diagnosis and management of acute lower gastrointestinal bleeding: **ESGE** Guideline
- Functional bowel disorders with diarrhoea: Clinical guidelines of the UEG and **ESNM**
- Contrast Enhanced Ultrasound (CEUS) in the Liver – in collaboration with **EFSUMB**
- **ESPEN** practical guideline Clinical Nutrition in IBD (also available within the **ESPEN Guidelines App**)
- **EASL** Clinical Practice Guidelines: Drug-induced liver injury
- Endoscopy in patients with antiplatelet and anticoagulant therapy – **BSG** and **ESGE** guideline update

Have you heard? Our innovative and constantly improving app:

- Now contains many visual abstracts
- Lets you easily share content with peers and colleagues via external platforms (such as WhatsApp, Twitter, Facebook, and more)
- Has 25 guidelines, 55 tools, and over 20,000 downloads

Help us help you – it only takes a moment to benefit from these innovations!

To use the optimised version of our app, please make sure you've downloaded all updates via the **App Store** or **Google Play Store** and within the GI Guidelines App itself.

Utilise GI Guidelines App

Register for our upcoming **GI Guidelines Webinar** – **AGREE-S: AGREE II Extension for Surgical Interventions**

ueg week

30th United European Gastroenterology Week

In Vienna and Online October 8–11, 2022

In a hybrid world, engage as one connected community.

ueg.eu/week

The poster features a stylized graphic of several colorful, thick, curved lines in yellow, blue, green, orange, and red, resembling a tree or a network of paths. These lines are supported by a grey rectangular base. At the base of the lines, several pairs of legs and feet in various styles of shoes (sandals, sneakers, high heels) are visible, suggesting a diverse group of people standing together.

Don't miss our guidelines sessions at UEG Week!

At UEG Week 2022, our popular "From guidelines to clinical practice" format returns with 3 sessions focusing on:

1. [FMT in Clostridium difficile infection](#)
2. [IgG4-related diseases](#)
3. [Oesophagus and stomach](#)

These sessions will occur live in Vienna and provide the opportunity for you to engage with experts and raise your questions in real-time. Unable to join in-person? No need to despair! These sessions are also available for all online delegates via our innovative virtual congress platform with multiple ways to interact, including our Q&A and chat tools!

Bonus tip: Simply select "**Standards & Guidelines**" within our "**Session Pathways**" feature (located on the left-hand side of our **UEG Week online programme**) to easily see each day's guideline-related sessions at a glance.

[Access full programme](#)

Want even more guidelines? While in-person at UEG Week Vienna, be sure to pick up a printed copy of our **UEG Journal**! It contains the [Obesity Care guideline](#) as well as the recently published guidelines on [functional bowel disorders with diarrhoea](#).

Speaking of the new guideline on Obesity Care:

Read the publication in UEG Journal

It's new and for you! We encourage you to take the time and read the European Guideline on Obesity care in patients with gastrointestinal and liver diseases – joint [ESPEN](#) and UEG guideline which was recently published in UEG Journal.

[Access publication](#)

Plan ahead & register for our webinar

Can't wait to learn more about obesity care? You can already register free of charge for our related, "From guidelines to clinical practice" webinar on December 1! Join in real-time to engage in the dynamic discussion, learn live from authors, Stephan C. Bischoff and Cristina Cuerda, and earn 1 CME credit!

[Register now](#)

Join our elegant evening! Let's **celebrate 30 years** of stellar science together on the occasion of UEG Week Vienna.
