Report cases of COVID-19 in your patients

UEG is a strong community of digestive healthcare professionals with a commitment to sharing information and supporting each other. The severe impact of COVID-19 on global healthcare has highlighted the need for the rapid accumulation of data pertaining to subpopulations infected with the virus, so that **specific clinical recommendations can be developed quickly**.

We therefore support registries designed to capture data for patients who suffer from digestive diseases and are also infected with COVID-19. **Please report all confirmed COVID-19 cases in your patients** and encourage your colleagues to do the same:

- [COVID-19 and IBD reporting database \(SECURE-IBD\)](#)
- [COVID-19 and EoE/EGID reporting database \(SECURE EOE/EGID\)](#)
- [COVID-19 and liver disease reporting database \(University of Oxford\)](#)

[Browse registries and relevant resources](#)

UEG Webinar: COVID-19 & Digestive Health #2

Join us on April 7 at 18:30 (CET) to learn more about the **impact of COVID-19 on end-stage liver disease & liver transplantation!** Our experts Marina Carmen Berenguer Haym, Carmen Vinaixa and Jörn Schattenberg will discuss:

- The impact of COVID-19 on liver transplantation
- Considerations surrounding organ donation and recovery, anticipation and registries
- Management of immunosuppression, drug–drug interactions and therapy
- End-stage liver disease and COVID-19

The webinar will be moderated by Joost PH Drenth and addresses liver transplant specialists, digestive health specialists, infectious disease specialists and microbiologists.

Watch out for more webinars after Easter!

Register for free, places are limited!
