

## Medical devices and in vitro diagnostic medical devices

Do you want to learn about the practical implications of the new EU legislation on medical devices?

The [factsheet for Healthcare Professionals and Health Institutions](#) helps you to prepare for the application of the Medical Devices Regulation (MDR) and the In Vitro Diagnostic Medical Devices Regulation (IVDR).

If you have expertise related to medical devices and want to provide input on the implementation of these two regulations, respond to the European Commissions' call for expression of interest for expert panels **by November 10**. All applications must be submitted online in English. [Check out the official information as well as important links.](#)

[Watch our video on alcohol labelling across Europe!](#)

With 25% of deaths from gastrointestinal diseases directly attributed to alcohol, it's high time the EU took steps to ensure that people are aware of the health risks that are associated with drinking. To raise more awareness on the matter, UEG, together with the European Association for the Study of the Liver (EASL), the Standing Committee of European Doctors (CPME) and the European Alcohol Policy Alliance (Eurocare), released a short video calling for detailed government-monitored alcohol labelling to become an EU-wide regulation.
