

World Class Science.

ueg.eu/week

Call for your research to be discussed at the world stage

As the world tries to cope with a novel coronavirus, the sharing of science – especially the latest gastroenterology science – becomes ever more important.

Abstract deadline is May 15, 2020 Midnight CET

The Scientific Committee encourages you to submit your own science, also including results from COVID-19 research. Don't miss out the opportunity to present your findings in the largest digestive health community and publish these in the UEG Journal - the scientific voice of European gastroenterology. UEG Week will remain the premier platform for researchers around the world and guarantees excellent exposure also in case UEG Week needs to go virtual.
