

This UEG Week, catch all the stellar science in-person!

After two years of solely virtual events, we can't wait to welcome you to **UEG Week Vienna** very shortly on October 8 – 11, 2022 to meet, exchange, and evolve for the best gastroenterology congress in the world! Check out all of the scientific wonders that await you!

(Unable to join in-person? This year we've gone hybrid and are thrilled to also offer our top-tier scientific programme as well as innovative ways to exchange via our **virtual platform**.)

Our Science Lounge: The perfect place for posters, networking & scientific exchange!

In addition to **Moderated Poster Sessions** and the **poster exhibition**, you can use our **Science Lounge** for face-to-face interaction with other delegates. All posters will be featured on terminals thus allowing delegates an experience similar to walking through our physical poster exhibition. The **virtual exhibition** will additionally feature the possibility to play previously recorded audio presentations. All Poster presenters are invited to include such a recording of their presentation. The Moderated Poster session area is exclusively available to all in-person delegates.

Be sure to join us in Vienna for our **on-site poster rounds** with innovative, in-person terminals **12:30 – 13:30 CEST** on Monday and Tuesday, **October 10 – 11**.

Our unbelievably immersive hands-on areas for endoscopy & ultrasound.

Featuring two Learning Areas – ultrasound and endoscopy – our hands-on programme exclusively offers our in-person delegates the opportunity to **improve your hands-on skills on-site** at UEG Week 2022!

Both Learning Areas are open to everyone who would like to take part and are expertly run in cooperation with our long-term collaborators, **ESGE**, **ESGENA**, **EFSUMB** and **BICUS**. Open October 8 – 11 to all in-person delegates on a first-come first-served basis.

In addition, during our **Live Endoscopy on October 11**, top international experts will demonstrate cutting-edge techniques alongside basic procedures transmitted directly to UEG Week in Vienna and your living room. The inclusion of multiple parallel cases and experienced chairs ensures an interactive learning experience. The Live Endoscopy is run in cooperation with **ESGE**.

This year our UEG Week Opening Sessions have so much great content, they require two parts!

Your two star-studded, highly scientific Opening Sessions are rapidly approaching! Featuring the hottest content, awardee presentations, and international GI giants, make sure to join both sessions live in Vienna and virtually. You won't want to miss a minute of either!

Save the date and learn more:

Opening Session Part I: Sunday, October 9, 13:30 – 14:30 CEST

Opening Session Part II: Sunday, October 9, 18:00 – 19:30 CEST

Curious who this year's UEG Week VIPs are? Here are your insights from the UEG Scientific Committee Chair herself!

Hot topic: Pancreatic mass

“Thomas Seufferlein: Neoadjuvant treatment of borderline resectable pancreatic cancer improves overall survival of PDAC patients. Let’s learn from Thomas, the president of the German Cancer Society and ESMO councillor which regimen is most beneficial and whether neoadjuvant treatment also for resectable patients should be offered.”

Julia Mayerle

Catch his presentation live October 9, 18:27 – 18:34 CEST within our engaging UEG Week “Pancreatic mass” session, 18:00 – 19:30 CEST.

[Learn more](#)

Hot topic: EUS-FNA

“In the last century ultrasound was the diagnostic work horse in GI disease, now it is EUS – but when does it help in decision making? A question Marianna Arvanitakis in charge of this year’s life endoscopy programme will answer. Something we should all know.”

Julia Mayerle

Catch her presentation live October 9, 16:30 – 16:40 CEST within the UEG Week session “Crash Course: When to do EUS and EUS-FNA in pancreatic lesions”, 16:30 – 17:30 CEST.
