

“We are expecting top notch clinical education & science at our 30th UEG Week & hybrid meeting, but even more importantly, we will meet in-person to exchange our experiences & network.”

Julia Mayerle

UEG Scientific Committee Chair

Dear friends & colleagues,

Today is the day – please register to be part of united gastroenterology in Europe and the world! This year, we are thrilled to deliver you UEG’s first-ever **hybrid** congress in Vienna and online, from **October 8 – 11, 2022!**

Enjoy the best of both worlds with our in-person and virtual formats where we will deliver one event but allow two experiences, and as the cherry on top – it’s our 30th **UEG Week** anniversary! We will also bring back our in-person **Postgraduate Teaching Programme (PGT)** as well as our Hands-on and Live-Demos.

Register now

It’s clear why you should register, but here are even more reasons!

After two years of solely virtual events, I am thrilled to welcome you on-site in Vienna for an in-person UEG Week in our innovatively designed congress venue for a scientific and social experience unprecedented even by previous UEG Weeks.

This year's UEG Week and PGT provide plenty of opportunities to physically meet colleagues, peers and friends once again, to exchange and evolve, to discuss and enjoy.

UEG Week and PGT are premier venues for researchers from across the globe to present their latest findings, combining world-class scientific research and invited lectures by leading minds in gastroenterology. Being multidisciplinary is a key focus of UEG, which is why UEG Week and PGT cover topics of interest for the entire GI community (the [myUEG Community](#)). We want to empower you to advance your scientific career, grow your network, and beyond, by registering today and [attending UEG Week](#).

We are committed to making UEG Week easily accessible both logistically and financially, according to your personal needs and preferences. Have a look at our [fees](#), as well as the [reduced fees](#) offered to specific groups. If you are a [myUEG Young GI Associate](#), check out our funding options. I am sure you will find a suitable scheme.

ueg week

30th United European Gastroenterology Week

In Vienna and Online October 8–11, 2022

In a hybrid world, engage as one connected community.

ueg.eu/week

We have finalised the programme & are thrilled to share full details with you

As Scientific Committee Chair, I am proud of the programme which our committee members have put great effort into and designed to meet your needs!

The UEG Week 2022 scientific programme takes place both in-person (Vienna) and on our virtual congress platform. Besides state-of-the-art medical education, the programme will include in-depth scientific discussions, interviews with top leaders in the field and controversial debates. Additional programme will be broadcasted from our **Live TV Studio**

and you can be the on-site audience in Vienna or view us online, from wherever you are. We will broadcast up to 5 times each day. Each broadcast will feature dynamic scientific highlights, providing an interactive delegate experience!

This year's programme features a **star-studded faculty**, new ways for delegates to interact with experts and the community, as well as innovative content relevant for everyone focusing on GI-diseases.

You can meet me live by joining the following talks and sessions:

- [Never waste a good disaster: What I regretted most in my clinical practice](#)
- [Gene therapy and cellular therapies in GI disease](#)
- [Artificial intelligence for upper GI-endoscopy: What's new in 2022?](#)
- [Ongoing dilemmas in refractory ulcerative colitis](#)

My recommendations as Scientific Committee Chair:

I highly recommend that you take the opportunity to listen to topics outside your special interest – this is what I am going to do! Enjoy multidisciplinary and cross-cutting knowledge at the highest level.

Access programme

Abstract submission is open – the world awaits!

This is your reminder that as one of the largest GI meetings in Europe, an abstract accepted for UEG Week 2022 is guaranteed to achieve the visibility and recognition it deserves. Don't delay – submit today! Abstract, clinical case, and video case submission is free of charge and open until **April 29, 2022**.

Submit

Already submitted your abstract?

Then congratulations on your accomplishment! [We encourage you to share this exciting update with peers, friends, and colleagues by posting these images on social media!](#) Remember to tag UEG in your posts, so we can like and share them! ([Twitter](#) and [Instagram](#): @my_ueg, [Facebook](#) and [LinkedIn](#): @ueg.)

Share

I'd like to personally thank you for your commitment to continued education for the betterment of the field of digestive health. On behalf of the entire Scientific Committee, it is our pleasure to now share this year's online programme with you and extend our invitation. Please also extend our invitation to your colleagues and help spread the word!

Have thoughts on the programme or simply want to get connected? I encourage you to ["connect" with me via My Connect](#), UEG's brand new, completely secure networking

feature. I am eager to interact with you and will be happy to receive your comments, suggestions, and ideas.

I look forward to seeing you at UEG Week!

Kind regards,

Julia Mayerle

UEG Scientific Committee Chair

UEG Bonus: Guidelines galore

UEG Guidelines Webinar –
coming soon & open for registration

Faecal incontinence: From guidelines to clinical practice. Thursday, **May 12, 2022**, 18:30 – 19:30 CEST.

Register

We have 3 new guidelines in our GI Guidelines App

All are also published in UEG Journal:

1. [13C-breath tests](#)
2. [Functional dyspepsia](#)
3. [Gastroparesis](#)

Our free app has over 19,000 downloads!
