

Amsterdam Live Endoscopy '19

16 & 17 December 2019, Thirteenth Annual Course
Hotel Okura Amsterdam, The Netherlands

First announcement

Welcome to Amsterdam Live Endoscopy 2019!

Amsterdam Live Endoscopy is one of the premier live-endoscopy meetings around the world. Started 12 years ago, we have integrated live demonstrations of basic and advanced endoscopic techniques with short interactive presentation of recent endoscopy-related guidelines and clinical update sessions. Although we realize that live demonstrations are not always the most effective way of (postgraduate) education, we feel that some aspects of in-traprocedural decision making and adaption of technique and therapeutic plan, can only be shown in live cases. We take pride in combining both more basic techniques with high-end advanced interventional cases. By showing what is possible we teach our audience to incorporate these advanced options in the decision making with their patients. We are also proud of a growing participation from endoscopy nurses and technicians. Together with endoscopists they must form a team in order to succeed in advanced endoscopic techniques.

Amsterdam Live Endoscopy will again bring you a well-organized event with lots of discussion with your colleagues and our faculty. This year's faculty includes Mariana Arvanitakis from Brussels, Raf Bisschops from Leuven, Greg Ginsburg from Philadelphia, Brian Saunders from London, Frank Vleggaar from Utrecht and Hironori Yamamoto from Yokohama. All six are highly qualified endoscopists with ample experience in doing cases for a live audience. Added to that, cases will also be shown by our worldwide well-known local Amsterdam faculty. AMC and vumc have now joined forces and together form the Amsterdam University Medical Centers. We hope to see you December 2019, 10 days before Christmas, in Amsterdam.

Young Endoscopists Poster Presentations

Amsterdam Live Endoscopy 2019 is happy to invite young endoscopists to share their research and/or remarkable cases with other participants. For this, there will be a continuous poster presentation during Monday and Tuesday. This poster presentation will be set up in the Amstel Foyer, the main area for coffee, tea and lunch.

With these poster presentations, we want to provide young endoscopists a platform to discuss their work with international colleagues. Abstracts will be printed in a booklet and distributed to all course participants.

To submit an abstract on-line:

www.amsterdamendoscopy.com.

The maximum word count is 350. You will be notified about acceptance for poster presentation within three weeks of submission. Last opportunity to submit is 1 November 2019.
